

Function

- LCD display
- Automatic shutoff
- Low power prompt
- Using Japan imported sensors
- Temperature locking temperature
- Maximum /minimum measuring function
- Novel handy and portable appearance design
- Conversion function of °C/°F temperature unit

Specification

Temperature measuring scope	-50~300°C (-58 ~ 572°F)
Resolution	0.1°C
Power Source	1*CR2032 Button Battery
The environment temperature	0~40°C (32~104°F)
Environmental humidity	10-90% RH
Length of Whole Machine	242.5*33mm
Net Length of Probe Rod	149.5*4mm
Display Dimension	44*18mm

Application

Barbecue

Heating

Refrigeration

Food processing
